| IDENTIFIERS | *Indiana |

ABSTRACT

The 1974 directory of agencies serving the retarded in Indiana includes associations, programs, agencies, and residential facilities. The board and staff members of the Indiana Association for Retarded Citizens (IARC) are listed with their home and business addresses and telephone numbers. County services for the retarded are listed in alphabetical order by county. Also listed are multicounty services for the retarded, summer residential camps, officers and directors of Youth IARC, and residential institution associations. Residential facilities are listed alphabetically by name within sections on public (primarily for mentally retarded), public (primarily for mantally ill), and private facilities. Usually provided for agencies and facilities is name, name of executive director or superintendent, address, and telephone number. An additional section serves as a reference directory to associated agencies and services in the following categories: state of Indiana, national and international levels, IARC regions, Division on Mental Retardation and Other Developmental Disabilities, mental retardation planning regions, and retarded citizens state association offices. Maps identify which Indiana counties are in various regional programs. (DB)
